IT'S A FACT!

A PROFESSIONAL FIREFIGHTER IS SIGNIFICANTLY MORE LIKELY TO BE FIRED THAN KILLED IN THE LINE OF DUTY

You are diligent about recognizing and responding to the physical dangers of the job. This class is designed to help recognize and respond to common behaviors costing firefighters their careers and agencies millions of dollars annually. The Career Survival Group is your first step toward a meaningful and sustainable effort in protecting you and your agency from career threatening events. Career Survival Training is specifically designed to provide a clear understanding of the dangers involved in workplace environment claims and to motivate employees to protect themselves and each other from these dangers.

HOSTED BY:
